

Connect Electronics

Conflict Minerals Statement

To Whom It May Concern:

As a global supplier of electronic components, Connect Electronics is aware of, and supports the Dodd-Frank Act in the USA, specifically Section 1502, that requires companies to declare if "Conflict Minerals" are contained within their products.

The term "Conflict Minerals" generally refers to gold, tantalum, tin and tungsten, and their derivatives which are mined in areas of armed conflict and human rights abuses - particularly in parts of the Democratic Republic of the Congo (DRC) and surrounding countries.

Connect Electronics does not directly purchase any Conflict Minerals from any source and does not knowingly procure products containing Conflict Minerals from the Conflict Regions.
