

## Connect Electronics

### Statement of Quality Policy and Objectives

It is the policy of Connect Electronics to meet all quality requirements expected of us by our customers.

Connect Electronics believes that by continually striving to achieve and maintain the Customers expectations in relation to quality and using the ISO 9001:2015 & EN 9120:2018 Quality Management System Model to assist in attaining these goals, it will ensure that Customer expectations and requirements are fulfilled.

Our Primary Objectives as a company are:

- Provide a service that consistently meets with customer requirements.
- Maintain and Increase market share.
- Provide a working environment that encourages all employees to contribute positively to the improvement of the company's market position and enhance their own status and profile within the company.
- Provide training in all aspects of Quality and Service Provision to ensure the optimum level of Quality (Customer expectations) is attained.
- Secure long-term employment for its workforce.

All employees are required to understand and carry out their responsibilities in a manner that reflects the Company's continuing commitment to Quality Improvement.
